

**Dear Sir/Madam**

I am an extremely enthusiastic 3D Digital Design Student, I am highly interested in joining this YDP scheme, with many transferable skills. I feel I will be able to work well in the industry environment and this will help to understand how everything works, I work with software from 3dsmax, although I am a music producer by trade, I am trying to move further into the field of 3d Digital Design.

I feel this project would have a great impact on my future and help me understand more about my job role in the industry. I would also like to work with students from other courses as I feel that it would give a wider perspective of different practices and techniques applied by different people in different job roles.

Thank you for considering my application

Yours Faithfully

**Pavel Horvath**
